TORRANCE NEWS

Mrs. Nettie Bailey and Mrs. Beatrice Bailey, of St. Louis, arrived on Tuesday to visit Mr. and Mrs. Anthony Zahradnick.

Mrs. W. K. Earl of Los Angeles, and son, Richard, were week end guests of Mrs. Nettie Steinhilber and Mr. and Mrs. George Proctor.

Mr. and Mrs. R. C. Kite and children will motor to Sierra Madre and visit at the home of Mrs. Kite's aunt, Mrs. Strickland, where the Kite children will remain for two weeks.

Mrs. Dora Schmidt is building a five room house on her acre adjoining her daughter's home, Mrs. Charles Stock, in Vista Highlands, which will be occupied by Mr. and Mrs. Reginald Springer.

W. L. Smythe and family, of Los Angeles, were in Torrance on the Fourth calling on friends. The Smythes formerly lived on Plaza del Amo but moved to Los Angeles on account of Mr. Smythe's work. They still think a great deal of Torrance and enjoy coming out here.

Mrs. Jaspar Leake and mother, Mrs. Leake, of Fresno, arrived last week end and are visiting at the home of Dr. and Mrs. N. A. Leake. Mrs. Jaspar Leake will make a short visit, while Mrs. Leake will remain at the home of her son during the summer.

Miss Katherine Burmaster and Ralph Beall, who graduated with this year's class of the Torrance high school, are both employed at the Union Tool company, Miss Burmaster as stenographer, and Mr. Beall in the engineering department.

Mrs. Walter Swindell received a letter Sunday from Mr. and Mrs. James T. Wise, who are visiting their daughter in Muncie, Indiana. Mr. and Mrs. Wise had a delightful trip east and were glad to be among old friends once more. On the evening of their arrival in Muncie, Mrs. Wise sister came for her to take her to see her mother, but on arriving at the house it was all dark. Mrs. Wise rushed in to see her mother when the lights were turned on and she was greeted by about 30 of her relatives besides a few old friends. Mr. Wise is well and enjoying himself very much greeting old friends.

After you have read this paper pass it along.

MOST MILES per DOLLAR

Firestone

GUM-DIPPED CORDS

-and Their High Mileage Records

The high mileage records of Firestone Cords continue to emphasize the fact that Firestone methods are different and better. These records, steadily increasing in number and in mileage totals, justify the Firestone contention that there is one best way to build tires.

Among the primary sources of Firestone extra mileage is double gum-dipping—the saturation of the cord plies in a vat of liquid gum—thus coating each cord and virtually eliminating internal heat and friction.

Another is Firestone air bag curing, with its 200 pound pressure, which places every cord accurately and equalizes the tension.

By blending the rubbers of different plantations and types, and by tempering it before mixing, Firestone men add still more mileage.

Many cord tires are good—a few are better—Firestone users say one is best.

Those who have already experienced Firestone mileage, have stopped shopping and experimenting—they have made these cords standard equipment. Investigate your friends' success with Firestone Cords—and buy your next tire accordingly. Come in and get your share of extra mileage.

FABRIC		30 x 3	\$ 8.95
30 x 3	Oldfield "999"	\$ 7.99
